-

REMARKS:

Attached is the Annual Report 2014 (revised April 2015) for the Office of Information Practices (OIP), which corrected pages 8 and 12 to reflect a backlog of 122, rather than 105, cases at the end of FY 2014. Page one now notes that pages 8 and 12 were revised, and the cover states that the Annual Report was revised. As these four pages were the only ones revised in the report, please correct any physical copies that you may have made of the Annual Report. We apologize for any inconvenience that this may cause you.
